Build a reputation for
creativity, quality and reliability.

Designed for commercial print and in-plant organizations, the Pro C7200X Series Graphic Arts Edition delivers all the benefits of digital printing — and then amplifies the possibilities with high-value capabilities that traditional four-color systems simply cannot match.

Energize your business with an extended color gamut and a whole new range of applications. Optional 5th Color capabilities and breakthrough media handling take your creativity to a higher level, while a powerful engine and intuitive user interface let you do even more. Drive revenue with unique services, offer faster turnarounds and build customer loyalty with high-impact personalized marketing.

- 5th Color toners include gold, silver, white, clear, neon yellow, neon pink and invisible red.
- Up to 95 ppm with an expansive 16,200-sheet maximum paper capacity for longer runs.
- Media weights up to 360 gsm and oversized sheet options for creative flexibility.

- Easy-to-use paper library that minimizes operator training and delivers repeatable results.
- Auto duplex/perfect sheets up to 13" × 27.5" with precise registration.
- Reproduce images with exceptional detail at 2400 × 4800 dpi resolution.

Advanced automation

Repeatable results are a must in today's world. Ricoh's cutting-edge technology lets you process more jobs per day — with less waste and less effort. Inline sensors for auto registration and auto calibration keep production fluid with exceptional output job after job.

Robust finishing

Achieve end-to-end document production, in-house. Whether you want to print saddle-stitched booklets, ring-bound books or complex direct mail, next-generation inline, near-line and offline finishing options expand your capabilities with best-in-class results.

Workflow solutions

Combine Ricoh-developed solutions with offerings from hand-selected partners to automate and streamline makeready, color management, ticketing, scheduling, workflow creation and reporting for a more efficient and profitable production process.

Go beyond
basic CMYK.

Differentiate yourself using Ricoh's 5th Color station. Print vivid colors comparable to those produced on offset, from brighter oranges to deeper purples. Elevate applications with premium gold and silver. Use neon pink and neon yellow for high-impact messaging or blend them with CMYK to match more Pantone® colors. Open the door to a new set of customers with invisible red for affordable security on certificates and tickets. Apply white as a base layer to deliver incredible graphics on colored and transparent media. Add clear to photos and logos for a slick look and explore unique patterns for more creative effects.

Designers can also take advantage of optional Color-Logic® software to add decorative effects and easily create 250 new metallic colors with a single mouse-click in Adobe® Creative Suite®.

Print forward with flexible subscription-based* 5th Color capabilities.

*5th Color capability activation varies by sales channel and the subscription method is not available through all channels. Please consult your Ricoh sales representative regarding activation method.

Take the lead with game-changing substrates that offer more choices.

Imagine the jobs you can take on with the ability to run synthetics, metallics, linens, magnetics, NCR and so much more. Support for weights up to 360 gsm gives you the freedom to create new products that were previously out of reach on a digital system. Expand your services with more profitable projects, from packaging and invitations to table tents and direct mailers, at nearly any volume.

Expand your business with oversized options that drive more value.

Print on coated sheets up to 13" × 27.5" or uncoated up to 13" × 49.6" to produce full-size tri-fold brochures, impressive pocket folders, posters, book wraps, direct mailers and more. Maximize media for more profitable production and spend less time handling jobs with auto-duplexing/perfecting up to 27.5".

Gain momentum — and keep it with exclusive resources and services.

Ricoh is dedicated to helping you make the most of your technology. Upon activating your 5th Color Station capabilities, you will receive access to exclusive marketing assets, print samples and a library of design tutorials. Explore them at your own pace — or tap into the power of Ricoh's Professional Services for more targeted assistance. Our expert team is here to support all aspects of your business with custom workshops, training, workflow design and much more.
